

Global Microbial Identifier (GMI) 14 Conference

Date: September 4-6, 2024

Location: Barcelona, Spain

Conference website: <https://gmi14.org/>

Join us for the GMI 14 Conference in the vibrant city of Barcelona. This scientific event on the use of genome sequencing in various sectors in the One Health frameworks promises an unparalleled gathering of global experts to discuss data harmonization, AI, economic impacts, equitable data sharing, and more. Many global experts from all over the world have confirmed to speak at the conference – check out the [program](#) to see who have already committed to be there. As GMI is a non-profit scientific consortium supported by various international organizations such as FAO and WHO, it will be a great opportunity for you to understand the global perspectives as well as the current reality in applying WGS in low- and middle-income countries. [Register today](#) to engage in stimulating discussions, presentations, and networking opportunities.

Highlights:

- Keynote speeches
- Panel discussions
- Breakout sessions with industry stakeholders
- Exploration of political and cultural barriers in data sharing

Don't miss out on this opportunity to contribute to and advance genomics research. Explore Barcelona's rich cultural heritage while enriching your professional knowledge.
